Are we asking the right questions?

- Why don't people come to church anymore?
- Where are the young people?
- Why are our numbers shrinking?

Are there better questions?

- How do we take the church into the world rather than expecting the world to come to the church?
- How do we feed the spiritual hunger people have?
- What is a *Community Spiritual Companion*?

Ask an experienced panel!

- Laity & pastors from New Denver
- Laity from Trail area
- *Community Spiritual Animators* from Eastern Canada
- Rev. Beth Estock

"How can we partner with Christ in the unfolding of the Kingdom in this Community?"

"Churches grow from the rich soil of neighborhood. They are not like hydroponic tomatoes. They need soil. They need to put down roots within the latticework of relationships and communal identities that we call neighbourhood."

-*Weird Church: Welcome to the Twenty-first Century*
